

My family listens to K-Love at 92.1 in Austin. We enjoy this station and would miss it tremendously if it were to be removed from our listening area. KLove provides a service to our community that we don't get on another station. We have not had this station very long in Austin but it has made an impact to our community in the short time it has been available.

Please do not make the change that would take this station from our area.
